Stream Access

**Wetlands**

National Wetlands Inventory (NWI) uses  
aerial photographs to approximate wetland  
locations. NWI data typically under represents  
the presence of wetlands on the landscape.

**Shoreland Areas**

Areas are delineated by ME Dep. of  
Environmental Protection's Mandatory  
Shoreland Zoning Act, which includes areas  
within 250 feet of great ponds, rivers, and  
wetlands, and within 75 feet of streams. The  
regulations within each shoreland zone  
depends on the town, and towns may regulate  
greater areas than what is shown here. For
