## Water Resources and Shoreland Habitats

This map is nonregulatory and is intended for planning purposes only

- Organized Towns

Unorganized Towns

Developed

Impervious surfaces including buildings and roads.

Road Stream Crossings

Barrier

Potential Barrier

No Barrier

\*Crossings on private roads not shown.  
Find crossing details on the Stream Viewer - [beginningwithhabitat.org/maps](https://beginningwithhabitat.org/maps)

Alewife

Wild Brook Trout Habitat

Atlantic Salmon Habitat

Stream Access  
Priority conservation areas identified by the Dep, of Inland Fisheries and Wildlife.  
Stream reaches predicted to contain Atlantic Salmon within watersheds that have been classified as critical habitat under the Endangered Species Act for the Gulf of Maine Atlantic Salmon Distinct Population Segment

Wetlands

Shoreland Areas

National Wetlands Inventory (NWI) uses aerial photographs to approximate wetland locations. NWI data typically under represents the presence of wetlands on the landscape.  
Areas are delineated by ME Dep. of Environmental Protection's Mandatory Shoreland Zoning Act, which includes areas within 250 feet of great ponds, rivers, and wetlands, and within 75 feet of streams. The regulations within each shoreland zone depends on the town, and towns may regulate greater areas than what is shown here. For more information, please visit: <https://www.maine.gov/dep/land/slz/>

Beginning with Habitat (BwH) equips Maine communities, landowners, and conservation partners with tools to protect, restore, and connect important habitats and ecosystems in a changing climate. [www.beginningwithhabitat.org](https://www.beginningwithhabitat.org)
