

equips Maine communities, landowners, and conservation partners with tools to protect, restore, and connect important habitats and ecosystems in a changing climate.

Habitat Connectivity

Conserved Lands, Undeveloped Habitat Blocks & Habitat Connectors

Jackman

Focus Areas of Statewide Ecological Significance

The map illustrates the Moose River watershed, a significant geographical feature in the Northwest Territories. Key locations and features include:

- Towns and Settlements:** Attean Pond, Kibby Mountain, Snow Mountain, Sisk Mountain, and various other smaller communities like Attean Pond, Kibby Mountain, and Snow Mountain.
- Rivers and Creeks:** The Moose River, Attean Pond, Kibby Mountain, Snow Mountain, and Sisk Mountain.
- Geographical Features:** The map shows the boundaries of the Northwest Territories, Yukon, and British Columbia, as well as the locations of various towns and settlements.
- Infrastructure:** The map includes labels for various roads and highways, such as the Yellowknife Expressway and the Mackenzie Highway.
